Conference Venue

Overlooking the Douro River, Porto is one of the most ancient European cities: it was born and developed from the northern bank of this river during the Middle Ages. One of the most significant aspects of Porto and its historical centre is its landscape, combining harmony with the urban structure and presenting a frame of rare beauty. Port Wine is a sweet fortified wine, exclusively produced in the Douro designated region, named after the city of Porto, where it is aged and bottled. Its unmistakable bouquet, body and flavour are due to the high quality of the grapes, as well as to the region’s soil and climatic conditions.
